

What to do in the event of an accident

Stop at the scene of the accident

Stop and inform the Police if any injuries have occurred as soon as possible.

Do not attempt to move seriously injured parties.

Inform other traffic and summon assistance if required.

Do not admit liability

Regardless of who is to blame, do not admit liability.

If you do so, you may invalidate your insurance.

Record driver and car details

Record driver's name, address, phone number, insurance details, vehicle details and extent of vehicle damage.

Record witness details

Obtain witness details, using the space provided.

Promptly as they may leave the scene of the accident.

Record the accident details

Record details of time, date and location of the accident, as well as traffic flow situation, weather and visibility etc.

Make a sketch map of the scene or take a photograph

Make a sketch map of road layout, vehicle positions, approximate speeds and position of witnesses. Take photographs if possible.
